

Sight Word 'Go Fish'

- Use (or make) a deck of about 20 cards so that you have two cards with each sight word, for a total of 10 sight words
- Shuffle the deck and deal out five to each players
- Put the remainder on the table in front of you, face down. This is your "Go Fish" pile
- Player 1 asks player 2, "Do you have the letter (word) ___?"
- If player 2 has it, player 2 gives player 1 the card, who gets to lay down the matching pair and take another turn
- If player 2 does not have it, player 2 says "Go fish" to player 1, who has to draw a card from the "Go Fish" pile
- It is now player 2's turn to ask player 1 for a card
- Play continues until one of the players is out of cards and is declared the winner
